SV-SERIES STAGE V BACKHOE LOADERS

580SV | 590SV | 695SV

ACROSS HISTORY

1842

CASE is founded.

1869

The first CASE portable steam engine - road construction is born!

1957

CASE produces the first ever factory integrated backhoe loader.

1959

CASE TLB 420 is the first diesel powered model.

1964

CASE is the first manufacturer to develop an extendable dipper, the patented CASE Extindahoe.

1999

CASE is the first company to offer a powershift transmission on a backhoe loader.

2000

CASE is the first company to offer a backhoe integrated quick coupler.

2001

CASE M series backhoe is listed in "Construction Equipment" magazine among the top 100 products.

2005

CASE produces its 500,000th backhoe.

2012

CASE achieves Tier 4 emissions standards while delivering best-in-class breakout force and lift capacity.

2016

CASE backhoe offering is enlarged introducing "In-Line cylinders" backhoe and "Straight-Loader arm" options.

2017

CASE introduces a Tier 4 final fully customizable backhoe.

2019

60th year milestone. Future in the making.

2020

CASE presents in North America the industry's first Fully Electric Backhoe Loader (model 580 EV).

2021

CASE introduces a Stage V TLB with a brand-new cab, bringing operator comfort to the next level.

SV-SERIES BACKHOE LOADERS

THE KINGS

CASE BACKHOE LOADERS

The original, ready for anything

Since introducing the first ever integrated backhoe loader in 1957, CASE has always been a front runner in the tractor loader backhoe industry.

We have built a strong heritage of industry firsts, on best-in-class performances and components, supremely reliable and well-proven technology, and productivity-boosting solutions.

It's no surprise, then, that faced with the challenge of meeting Stage V emissions regulations, we did it "the CASE way".

- + We accepted no compromise on performances: the new 3.6-litre FPT Stage V engine maintains the same best-in-class power and torque density of its Stage IV predecessor.
- + We designed with FPT an After-Treatment System specifically for backhoe loader applications - because we know them inside out!!

And we did not limit our efforts to power and performance:
with the SV-Series we have taken operator comfort to the next level!

- + The new cab is wider to provide more room for the operator.
- + The new cab is more ergonomic
- + The new cab has a completely new interior and exterior style

Now it's time to enhance our Customer's experience with the NEW SV-SERIES BACKHOE LOADERS.

SV-SERIES BACKHOE LOADERS

OPERATOR COMFORT TO THE NEXT LEVEL

NEW WIDER CAB

FEATURES	BENEFITS
+ NEW Restyled interior and exterior	Greater operator comfort and improved ergonomics
+ NEW Front and LH consoles design	Superior cab accessibility
+ NEW Superior roominess for the operator	Excellent knee and feet clearance when rotating the seat from loader to backhoe position
+ NEW Noise level reduced to 74dB	A quiet place to work!
+ NEW layout of switches and controls	Easy reachability in both loader and backhoe position
+ NEW Wider Pilot Control towers adjustability	Better ergonomics
+ NEW Best in class internal storage capacity: 4 times more than ST Series cab, including: 2 Lockable compartments, 2 Bottle/Cup holder, Cooling Box and 4 open trays	A place to store every item and to keep your lunch and drinks always fresh
+ NEW Excellent 360° Visibility	More productivity and safety on the job site and in the street
+ King class seat: the super deluxe air suspension option offers premium features	Height, lumbar and armrests full adjustability, and heating
+ Powerful Air Conditioning and fully openable windows	Excellent cab ventilation

CAB FEATURES FOR A MORE PLEASANT AND SAFE WORKING DAY AND DRIVE

FEATURES	BENEFITS
+ NEW Bluetooth radio option	Located on right hand pillar, easy reachability in any position
+ NEW Speedometer option	Located on front console, more safety when driving
+ NEW 2 speed wiper	Better visibility when driving in rainy/snowy conditions
+ NEW F-N-R switch on loader handle	Easy transmission direction change in loading applications
+ NEW Roller switch on pilot joysticks	Quick and precise dipper extension
+ NEW Cell-phone holder	Located on right hand pillar, easy reachability in any position
+ NEW 12V and USB ports	Conveniently located on the right-hand console
+ NEW Anti-Theft system	Peace of mind
+ 10 LED working lights option	Your work in dark conditions will be as bright as ever

SV-SERIES BACKHOE LOADERS

SUSTAINABLE PERFORMANCE

AS POWERFUL AS EVER!

Notwithstanding the stringent Stage V emission requirements, we accepted no compromise on performance!

The **NEW** 3.6-litre **FPT Stage V engine** maintains the same **best-in-class power and torque density** of its Stage IV predecessor.

F36

3.6 lt 4 cylinders

16v, Common Rail Injection

Compact Hi-eSCR2

LOW EMISSIONS

- + The **NEW** 3.6-litre FPT engine dramatically reduces emissions, meeting Stage V stringent requirements with **no fuel and urea consumption deterioration vs Stage IV**,
- + **NEW Compact Hi-eSCR2 After Treatment system** designed with FPT specifically for Backhoe loader applications
- + **NEW ECO mode** is standard on all units and delivers **10% fuel consumption saving**
- + Environmentally friendly!!
 - **NEW Auto Engine Shutdown:**
Automatic engine switch off when the machine is inactive for more than 3 minutes
 - **NEW Auto Idle:** Automatic reduction of engine speed when the machine is inactive for more than 5 seconds
 - Fully HVO diesel compatible
 - Biodegradable lubricants option available

SAFE, EASY AND LOW-COST MAINTENANCE

- + **One side engine serviceability** layout and all fuses and relays comfortably located in the cab for easy and fast maintenance operations
- + **Maintenance free After Treatment System** for reduced operating costs and maximized vehicle uptime
- + Minimum operating costs with **500 hours oil change interval and efficient low-rate EGR combustion (<10%)**
- + **Auto Engine protection shutdown** feature turns off automatically the engine when the most critical engine and transmission parameters are detected to be outside proper working conditions. Another solution that minimizes the costs of extraordinary maintenance!

SV-SERIES BACKHOE LOADERS

VERSATILITY FOR HIGH PRODUCTIVITY

CASE DNA BACKHOE

- + **Exclusive outer extendahoe:** all components in contact with the soil are **protected** against impact and material accumulation
- + The curved main boom provides greater digging ability and makes it easier to load a truck
- + **Low profile for easy transport**
- + **Patented CASE DNA integrated hydraulic quick coupler** allows changing over the backhoe attachments from the cab with a simple switch whilst preserving backhoe performance just as if the attachments were direct fit.
- + Gripper teeth for **excellent material retention**
- + **Swing Dampening** for precise backhoe operations and improved operator comfort.

TOOL CARRIER LOADER ARM

- + **NEW Hydraulic quick coupler** for easy and quick attachments swap.
- + The loader's **excellent lift capacity combined with the mechanical parallel lifting** delivers greater productivity.

IN-LINE CYLINDER BACKHOE

- + **Great visibility** thanks to the narrower frame
- + High stress resistance thanks to the balanced effort distribution along the boom
- + **NEW Hydraulic quick coupler** for easy and quick attachments swap
- + **Swing Dampening** for precise backhoe operations and improved operator comfort

STRAIGHT LOADER ARM

- + **Top loading reach and lifting capacity:** the perfect solution for professionals requiring a particularly high tipping point.
- + The simple structure ensures **great visibility** and low maintenance costs
- + **Anti-tipping function** keeps the bucket in the correct position while lifting the load, with no risk of material spillage

MAIN REASONS TO CHOOSE THE NEW SV-SERIES

PRODUCTIVITY / PERFORMANCE

- + **Best in class engine power and torque**
- + **Top of the industry Loader arm and Backhoe Lifting, Loading and Digging performances**
- + **NEW** F-N-R switch on loader handle for **easy transmission direction change** in loading applications
- + **NEW** Roller switch on pilot joysticks for **quick and precise dipper extension**
- + Protected Backhoe operations with the **powerful Case DNA backhoe**
- + **Patented CASE DNA integrated hydraulic quick coupler**
- + **Hydraulic side shift** enables easy and quick backhoe repositioning in all working conditions, while also preserving all types of soil.

COMFORT

- + **NEW** Superior in-cab **roominess** for the operator
- + **NEW** **Bluetooth radio and speedometer** options for a more pleasant and safe working day and drive
- + **NEW** **Excellent visibility** for productive and safe loader and backhoe operations.
- + **NEW** **Top of the industry in-cab storage compartment capacity**
- + Fully openable windscreens for **excellent cab ventilation**
- + **10 LED working lights:** bright work even in the darkest conditions.

TOTAL COST OF OWNERSHIP

- + **NEW** The 3.6-litre **FPT Stage V engine** dramatically reduces emissions with **same fuel consumption as Stage IV engine** and ensures **low maintenance costs**
- + **NEW ECO mode** is standard on all units and provides 10% fuel consumption saving
- + **NEW Auto engine shutdown and Auto idle:** you can **save fuel** and be **environmentally friendly** at the same time
- + **Variable Volume Pump** reduces consumption, by providing oil only when needed
- + Coming from a backhoe loader industry leader means not only a rich heritage, but also **proven technology and best-in-class suppliers.** This translates into **high reliability, more uptime, more productivity, and lower maintenance costs.**

360° SERVICE SOLUTIONS

- + **CASE SiteWatch™** makes fleet management easy, helping improve your productivity and profitability
- + **NEW CASE SiteConnect** enables your dealer to be proactive in managing your machine, boosting its uptime
- + **NEW CASE Protect extended warranty** and **CASE Care planned maintenance** give you full peace of mind

SV-SERIES BACKHOE LOADERS

CASE SERVICE SOLUTIONS

CASE Service Solutions is a 360° service package that covers different dimensions of your experience with the CASE equipment to boost productivity and improve the machine's Uptime.

It includes our Connected Services offering: **CASE SiteWatch™**, a complete fleet management tool, helps you secure your fleet and provide valuable machine information to improve your productivity and profitability. **CASE SiteConnect** enables your dealer to be proactive in supporting your machine and boosting its uptime.

It also means full peace of mind thanks to **CASE Protect**, our extended warranty program, and **CASE Care**, the planned maintenance for CASE customers. We also offer **CASE Fluid Analysis** to prevent major failures, maximize your machine's reliability and extend its lifetime.

In other words, **CASE Service Solutions** will keep the equipment in top condition with maximum uptime, no unexpected costs and optimized profitability!

BUILDING A STRONG CASE.

Since 1842, at CASE Construction Equipment we have lived by an unwavering commitment to build practical, intuitive solutions that deliver both efficiency and productivity.

We continually strive to make it easier for our customers to implement emerging technologies and new compliance mandates.

Today, our global scale combined with our local expertise enables us to keep customers' real-world challenges at the center of our product development.

The vast CASE dealers' network is always ready to support and protect your investment and exceed your expectations, while also providing you with the ultimate ownership experience.

Our goal is to build both stronger machines-and stronger communities. At the end of the day, we do what's right for our customers and our communities so that they can count on CASE.
